

# About us

We enable people to use technology,  
securely.

## Mission

Our Mission is to deliver complete IT managed solutions that support the operational end user in governed and regulated markets leveraging our considerable expertise in secure cloud - platform FLEX.

Nine23 are experts who exist to enable the front-line user in the regulated and compliant workplace to use today's technology securely. Because today's user expects to operate at work in the same way they do at home – consumer simplicity with enterprise security.

We passionately believe that the front-line user should be put first and empowered to use technology securely and by delivering outcomes for their needs. We have continually delivered accredited solutions at OFFICIAL Sensitive and above.

## Our Value Proposition:

Our Value Proposition is that we provide complete secure cloud IT Managed Services & Solutions:

- Nine23 enable the front line end user to use technology securely
- Manage and secure devices and allow data to be accessed remotely from secure government/ corporate networks PSN/ PNN/HSCN/corporate network
- We use our experience to design, build & develop cloud infrastructure to software development for mobile technology
- We deliver secure creditable managed IT Services and Solutions
- The Nine23 private cloud - platform "FLEX" is an accredited secure cloud complete IT solution that enables end users

## Background: Nine23 Ltd - Veteran owned

Understanding the front line user and ensuring their experience of enterprise technology meets their expectations is the prime concern of Nine23.

Starting with this understanding of Frontline Experience (FLX) we design user solutions, Apps, and supporting ecosystems that ensure enterprise requirements for assurance and security are seamlessly incorporated into a user-focused capability.

The company currently provides a managed mobility service to a number of regulated organisations using our own secure by Private cloud platform "FLEX". We provide a managed remote gateway solution into the Ministry of Justice and have designed and built mobile Apps that are currently deployed in a highly regulated network in Australia.

Understanding the front line user and ensuring their experience of enterprise mobility meets their expectations is the prime concern of Nine23.

" We are a team with extensive Front Line eXperience (FLX). We connect technology innovation with real operational needs."

Stuart McKean, Founder, Nine23

We are a Cyber Security Technology Solutions company that designs, builds and supports end users to use technology. We are passionate about delivering the best possible Front Line Experience and believe you should expect the same technology innovations in your work as you benefit from in your personal life. We deliver ecosystems creditable to Official-Sensitive as part of our secure cloud FLEX platform.
